REVER IMPROVEMENT APPROPRIATION.

he failure last year to secure an appre priation for the continuance of the Missis sippi river Improvement has aroused the opponents of the improvement. It has Washington upon the subject. The New Orleans Picavine suggests that New Orleans would be more convenient to the delegates from this valley. Something must be done to arouse the apathy the exists at Washington upon the subject and which is favorable to the active opposit sition of the East and the lobby of the railroads. The Picagone says: "The sec retary of the Executive Committee of the Western Waterways, Mr. Geo. L. Wright is correct in the declaration that unless the people of the Mississippi Valley ar hope from Congress. Indeed, it is safe t assert that a divided valley will obtain nothing whatever.' The point of mice our contemporary believes can found in avoiding the discussion or recoasking for the aid necessary to carry our such plane as are formulated by the Rive Commission. Local interests are necessary rily divergent, but without union upon the Commissioners' plans all improve ments will be in jaspardy.

The Mormon question is exciting much attention, and the people are beginning to in which that tebellious organization is exciting opposition to the rule of the United States. The New York Tribune thus correctly summatizes some of the to an extent which outsiders can scarce comprehend. It can crush any Mormi who questions its decision, or who show any disposition to obey the laws of the United States rather than the dictates of United States rather than the dictates of the church. It can make it impossible for such a man to do business, to keep property, or even to get a living in most parts of the Territory." Senator Vest said the Senate, by its record, now stood committed to the fact that there was such a thing in existence as the State of Dakota, the papers heretofore presented by Mr. Harrison, and read from the desk, having borne the words "State of Dakota," the body of gentlemen coming here representing Dakota, now style themselves the Executive Committee of the State of Dakota, the chairman of it being Hugh J. Campbell, who was not unknown to fame since the Haves administration for zealous and not overserupulous political assistance to that administration. This person, as Mr. Vest saw by the newspapers, was to receive an ovation for having received the recognition of the United States Senate for "the State-hood of the State of Dakota."

Senator Plumb thought Mr. Vest was giving Mr. Campbell a good deal of gratitious advertising.

Senator Vest said Mr. Campbell was very welcome to it. He (Vest), as a lawyer, regarded the Dakota organization as revolutionary. He had no doubt that the intent of the men concerned was to organize a State government in case this Congress should adjourn without recognizing their so-called State.

In reply to a remark by Senator Vest as to the conditions under which Territories might be admitted to the Union, Senator Harrison said there was no such thing as breaking into or breaking out of this Union.

Senator Vest said: "We were not talk-but as they were not read in court it is imthat the prisoners had written two letters, Senator Vest sa d: "We were not talk- but as they were not read in court it is im possible to give their exact language, or Senator Harrison—Then there could have been no point to the Senator's remark.

T. G. Bracking, M. D.—Dear Sir.: I will state that I had been seriously afflicted for several years. My disease being in most part peculiar to lemales, but by your skillful threatment I have been restored and am now enabled to enjoy life, which had been almost a burden to me. Thanking you for skill and courtesy, I am, very respectfully,

MRS. J. B. McFERRIN. A letter from the wife of the Hon. H. M. Spofford, L. L. D., of New Orleans, La.:

"I cordially commend Dr. T. G. Bracking to the afflicted, and carnesity advise an early consultation with him. Dr. Bracking practiced in our family to our great comfort and entire satisfaction, after several eminent physicians had not only failed to give the patient relief, but had severally mistaken the cause of illness. In three days after the case had been entrusted to Dr. Bracking's care the more violent symptoms were at an end. Within a fortnight the patient was enjoying the hissings of rapidly returning health, and this happy state was strengthened and fully perfected during the ensuing month.

MRS. N. L. FOSTER. Sixteen Years in Bed, then Cared.

Mrs. W. T. White, near Okolona, Miss., after being confined to her bed for sixteen years, entirely helpless, all medical skill availing nothing for her relief, consulted me in November, 1898. I found her with chronic endometritis, retroversion and spinal irritation, and as helpless as a child six menths old. In four weeks 1 had her walking about the place with ease and great pleasure, expressing herself as if she had "just emerged into a new world."

Mrs. Caroline Ford, aged 49, Beauregard, Miss., was brought to me on her brd, not having had a shoe on her feet for six years. If und hersuffering with prolapsus and retroversion, and endometritis. Said he had consulted a number of physicians, but they had failed to relieve her condition. I put her on treatment and in a short time she was able to walk where she pleased with great comfort, and was discharged thoroughly cored and returned home well.
